The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 3, 8, 11, 55 and 56 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 2 of U.S. Patent No. 5,827,850. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are directed to the same compounds as set forth in the patent claims except for a different scope. The patent claims are directed to a specific carrier while the instant claims are directed to "comprising" which would include a carrier. The assignee of the patent and the assignee of the instant application are the same company.

Claims 1, 3, 8, 11, 55 and 56 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 2 of U.S. Patent No. 6,153,610. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are directed to the same compounds as set forth in the patent claims except for the different scope. The patent claims are directed to a specific carrier while the instant claims are directed to "comprising" which

would include a carrier. The assignee of the patent and the assignee of the instant application are the same company.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "R" in the "X" substitutions fails to find basis in the formula. Correction is required.
